

Race 1

P11 to P9

After a rough opening lap, I got locked in a massive battle from P7 all the way to P12, swapping positions every lap. Towards the end, it spread out, and I came out with a great finish.

Race 2

P10 to P8

Race 2 was roughly the same story, the leading group breaking away early leaving a massive midfield to fight away, and I managed to keep calm and make smart decisions.

Race 3

P10 to P7

A great start saw me up a couple positions, and I tried hard to keep the leading group within reach, and onto the last lap, I joined a gaggle of cars all having a great battle, and just managed to pick off one extra position, and came out relatively clean for a mega result, and an all-round positive weekend.

As this was my third round, I'll be able to compete for the Rookie championship next year, which grows in competitiveness as the JSCC continues to expand its grid.

Massive thanks to my parents and my sponsors for making this all possible, to Cursley Motorsport, for another impeccable weekend of racing, everyone who came to watch, and all the marshals, organisers, drivers, and Silverstone for a great end of year Finale.

See you next year – Starting in March 2027
